EASY FAST Direct Injection ExR

Direct Injection Extended Range

CNG

EASY FAST Direct Injection ExR

DIRECTLY THE BEST

Easy Fast D.I. ExR system represents the essence of Lovato's innovation and it has been designed for petrol engines from 2 to 8 cylinders. By selecting components, which perfectly complimented each other, the system is able to guarantee reliability and performance.
Easy Fast D.I. ExR system uses the multipoint sequential injection technology: the injectors, controlled by the ECU, enter the gas into each cylinder and strictly replicate what happens during petrol operations.
Easy Fast D.I. ExR system can convert the latest cars with a direct injection engine. The conversion list of vehicles is available on our website lovatogas.com.
More than 6 million people rely on Lovato to make the planet a better place.
Then what are you waiting for?

CNG MAIN ADVANTAGES

Saving in fuel cost

Lower CO_2 emissions

CNG vehicles are not subject to any kind of limits and can be parked anywhere

CNG service stations are rapidly growing

lovatogas.com

SYSTEM DESCRIPTION

SWITCH

Allows user to change between gas and petrol and indicates level of gas in the tank.

ECU

Receives signals from various sensors and calculates the correct amount of gas to inject.

INJECTORS

Inject sequentially the amount of gas calculated by the ECU into each cylinder.

REDUCER

Reduces and adjusts gas pressure.

FILTER

Filters out impurities while preserving the functioning of the injectors.
